

The screenshot shows the AWS Management Console interface for EC2 Instances. The top navigation bar includes the AWS logo, a search bar, and the user's name 'DABBUKOTTU NAGARJUNA'. The left sidebar contains navigation links for 'EC2 Dashboard', 'EC2 Global View', 'Events', 'Instances', 'Images', and 'Elastic Block Store'. The main content area displays a table of EC2 instances. The table has columns for Name, Instance ID, Instance state, Instance type, Status check, Alarm status, Availability Zone, and Public IPv4 DNS. One instance is listed: 'Linux' with Instance ID 'i-00bc4b3ee1451eba1', state 'Running', type 't2.micro', and availability zone 'us-east-1c'. Below the table, there is a section titled 'Select an instance' with a search bar and a list of instance names.

Detailed billing reports (legacy)

Important:

The AWS Cost & Usage report contains the most granular set of AWS cost and usage data available, including additional metadata about AWS services, pricing, and reservations (e.g., Amazon EC2 Reserved Instances). If you would like to access detailed information regarding your AWS costs and usage, we recommend creating an AWS Cost & Usage Report.
